You think water moves fast? ~~You should see ice.~~^{anonymous} It moves like it has a mind. Like it knows it killed the world once and got a taste for murder. ~~After the avalanche, it took us a week to climb out.~~ Now, I don't know exactly ~~when~~^{anonymous} we turned on each other, but I know that seven of us survived the slide... and only five made it out. ~~Now we took an oath, that I'm breaking now.~~~~We said we'd say it was the snow that killed the other two, but it wasn't.~~^{anonymous} Nature is lethal but it doesn't hold a candle to man. However unreal ~~it may seem,~~ we are connected, you and I. We're on the same curve, just on opposite ends. You don't get ~~sick~~, I do. That's also ~~clear~~^{anonymous}.

The lysine contingency - it's intended to prevent the spread of the animals is case they ever got off the island. Dr. Wu inserted a gene ~~taht~~^{Green} that makes a ~~single~~^{Green} faulty enzyme in protein metabolism. The animals can't manufacture the amino acid lysine. Unless ~~they're~~^{Green} continually supplied with lysine by us, they'll slip into a coma and die. We're on the same curve, just on opposite ends. However unreal ~~it may seem,~~ we are connected, you and I. You don't get ~~sick~~, I do. That's also ~~clear~~^{Green}.

Now that we know who you are, I know who I am. ~~I'm not a mistake!~~ It all makes sense! In a comic, you know how you can tell who the arch-villain's going to be? ~~He's the exact opposite of the hero. And most times they're friends, like you and me!~~^{Mister Orange} I should've known way back when... You know why, David? They called me Mr Glass. However unreal ~~it may seem,~~ we are connected, you and I. We're on the same curve, just on opposite ends. You don't get ~~sick~~, I do. That's also ~~clear~~^{Mister Orange}.

Your bones don't break, mine do. **That's clear.** Your cells react to bacteria and viruses differently than mine. *You don't get sick, I do.* That's also clear. *But for some reason, you and I react the exact same way to water.* We swallow it too fast, we choke. *We get some in our lungs, we drown.* However unreal it may seem, we are connected, you and I. We're on the same curve, just on opposite ends. You don't get sick, I do. That's also clear.
